# Personalisation Options

# Add a Personal Touch

When it comes to adding an extra-special, personal touch, engraving adds an unparalleled level of detail to any gift. Montblanc Writing Instruments can be personalised in three different variations. Company logos, names or initials can be either engraved on the cap with silver-, gold- or rose-gold coloured covering, or alternatively be laser engraved on the clip. Additionally, the recipient's initials can be set in diamonds on the clip. Montblanc timepieces can be engraved on the back of the case with personal initials, a full name or even a company logo. Further accessories such as cufflinks can also be personalised, making each gift as unique and unforgettable as the recipients themselves.

# Personalised Leather Embossing

A personalised gift is proof of the thought and meaning that's gone into it. Montblanc's small leather products can be personalised in two variations, either embossing or lasering. Initials, full names or company logos can be embossed in gold colour, silver colour or blind embossed. Other colours are available on demand. Also, logos can be lasered on smooth leather surfaces. These options allow for even more thought and meaning to be delivered with these already impressive gifts.

# Personalised Stationery

It's quite difficult to enhance the elegance of a Montblanc notebook, unless one meaningful component is added: a personal message, motif or logo. Personalisation options include blind embossing, silkprinting on a leather cover or on demand; hand-painted names or initials. The addition of a such a timeless embellishment makes the notebook an emotional and important souvenir for the recipient.
